

## **4641 Sweet Spot for Sports**

This container has products on all sides and should be displayed so that customer's can see the products from all angles. It is also designed so that the sport item (ball, race car, hat) can be substituted easily, per the customer's sporting choice. Sporting paraphernalia can be bought locally, off the Internet or from the local boosters' clubs that are often selling these items to boost their budgets.

1. Gather all ingredients and remove the price labels.
2. Cover the newspaper well with a layer of white shred.
3. Decide what will be the front of your container.
4. Start with the large sampler acetate box, placed horizontally on the shred and secured with stickies.
5. Secure the window boxes with stickies on both sides of the acetate box and stick together with glue dots.
6. Turn the container around so the back is facing you.
7. Place the almonds, dark licorice, red cherry coins, and secure them.
8. Secure the sports item (ball, car) to the pretzel rod and acetate.
9. Make a double bow using the black-checked and a simple sheer ribbon color that coordinates with the sports item.
10. Make a bag for the container using shrink-wrap that is twice as tall as the completed container. Gather the shrink at the top and secure tightly with wire.
11. Shrink the bag over the product only, being careful not to heat the topknot.
12. Tie the bow around the wire so that it is on the front of the container.
13. Add unequal lengths of ribbon loosely, down both sides of the container and fluff the topknot.
14. Add bits of shred between the product, where there may be empty spaces to fill. This will add to the full appearance of the container.

Use a display sign with your price inserted (available online).
