

Triple Chocolate Marshmallow Puffs

- Put one marshmallow on the end of the stick.
- Dip it in dark chocolate and slide it up the stick towards the handle, using a dipping fork, leaving enough room for two more marshmallows.
- Before the dark chocolate has hardened, put another marshmallow on the end of the stick and dip it in milk chocolate and slide it up next to the dark chocolate-coated marshmallow, using a dipping fork.
- Before the milk chocolate has hardened, place a third marshmallow on the stick next to the milk chocolate-coated marshmallow and dip it in white chocolate.
- Add sprinkles or toppers as needed.
- Place the finished triple chocolate marshmallow puff down on its side to harden.
