

Fudge Topping

1. Open and set aside the evaporated milk.
2. Measure out four pounds of Orinoco and set aside.
3. Add cream powder to hot water in the large kettle and stir with a wire whip until there are no lumps.
4. Add white sugar, corn syrup, salt and butter.
5. Turn stove on high and stir constantly until ingredients all liquefy and keep stirring.
6. When the batch starts to boil, stream in the evaporated milk slowly enough so that the batch does not stop boiling.
7. Stir constantly so that the batch does not burn on the sides of the kettle.
8. Cook to 225 degrees and add Orinoco while stirring continuously.
9. Turn stove off at 230 degrees (+ or – adjustment for thermometer, calibration, temperature, humidity and barometric pressure).
10. Add vanilla and mix well.
11. Add approximately two quarts of water to achieve desired consistency.
12. Pour into ice cream tubs or similar type of storage container cover and store in refrigerator.
